All clamshell style tag dispensers are to be worn as shown with one strap over the shoulder and the other strap around the waist. This will cause the dispenser to be slightly off to one side depending on which shoulder you choose. The dispensers are shipped with straps set up to be worn as shown above.

If you have questions or comments, you may contact Highland Converting LLC at (231) 743-2466.

Thank you for purchasing Highland products!
